## President Lyndon Baines Johnson (LBJ)

**Abstract:** The Alphee's Astrological Investigators are studying the stand-alone United States Presidential Inauguration charts in an effort to determine whether events occurring during a President's term are expressed astrologically by calculation of transits, progressions, and/or solar arc. While numerous events occur during a President's term in office, it is beyond the scope of this study to examine them all. It is the hope of this investigator that the following will inspire the reader to delve further into the study of Inauguration charts.

**Method:** First, an examination of the Presidential Inauguration chart to determine the state of the Presidency. Second, examination of events to determine what correlates to the Inaugural chart.

**The Inauguration Background:** While Inaugurations have typically occurred in Washington, D.C. at the Capitol Building on the 20th day in the month of January, since the 1930's, exceptions do occur, as is the case in this instance. To facilitate a quick transition, intra-term inaugurations are small oath taking ceremonies without the day-long celebration and fanfare. The nation is usually advised afterward by Presidential address. Such an address took place before the Joint Session of Congress on November 27, 1963, in Washington, D.C.

**The Inauguration:** The thirty-sixth President of the United States, Lyndon Baines Johnson (LBJ), was sworn into office aboard Air Force One on November 22, 1963 at 2:38 PM, in Dallas, Texas as a consequence of the assignation of President John Fitzgerald Kennedy (JFK). It is interesting to see a reflection of this tragic event in the chart pertaining to the emergency swearing in of LBJ on that date. Scorpio is the natural ruler of the eighth house. The 29th degree Scorpio Sun (Anaretic or Karmic Degree) which represents the President and his cabinet is located in the eighth house of inheritance. This is both a reflection of Kennedy's assassination and the instillation of Lyndon Baines Johnson as President of the United States due to the unanticipated event in November of 1963.

President Johnson picks-up the gauntlet of his predecessor. This locomotive chart is fueled by the energy of the lead planet Uranus which is located in the sixth house. On that day, the security of the USA national defense was energized. All Civil Service agencies were enlisted to secure the safety of LBJ during this crisis, so he could be sworn into the Office of Presidency aboard the Air Force One aircraft. Then he and other government representatives would be brought back to the White House safely with former First Lady Jacqueline Kennedy and the casket bearing President John F. Kennedy. Mercury (communication) is conjunct Vesta (keeper and protector of the home and hearth) located in the eighth house with the Sun (President). It is interesting to note that the binary star, Toliman, is conjunct the Sun. (See chart symbol "T":  $29^{\circ} \text{ } \text{m} 1'$ ). Federal District Judge Sarah T. Hughes, who was requested by Vice President Johnson, administered the oath of office to Johnson in a conference room on the aircraft. This was a historical event and an honor for her, as she was the first woman to ever issue an oath of office to a president. And, Vice President Johnson was elevated to the status of United States President.

JFK was shot and lost the capacity of his brain to function. Pluto (mortality) squares Sagittarius Mercury in detriment (the mind/brain). The sixth house of health holds Pluto a significator of life/death and the underworld conjunct Uranus indicating upsets due to change. The solar eclipse ( $27^{\circ} \text{ } \text{☿} 24'$ ) that occurred on July 20, 1963 conjuncts the fifth house cusp of social functions, public sorrow or happiness ( $27^{\circ} \text{ } \text{☿} 03'$ ); according to H. S. Greene, . . . "some great person may die." The solar eclipse is also quincunx the Galactic Center (GC  $26^{\circ} \text{ } \text{♄} 20'$ ) signifying a challenge, transformation and

need for adjustment. Feelings of uncertainty and optimism alternate (Venus 21° 34' quincunx Uranus 9° 49'). Both Pluto and Uranus are in intercepted Virgo; subordinate Vice President Johnson was suddenly thrust into the position of President for which he was well prepared and had envisioned for himself as a potential President candidate in 1960. LBJ had served in many governmental capacities prior to his service as Vice President in the Kennedy administration. (See LBJ pre-Presidential accomplishments, listed at the end of this article).

There is a substantial element of planetary fire and action in this chart. In addition, both Pluto and Uranus are in opposition to intercepted Chiron that is located in the 12th house. Could this suggest a fated injury, that alludes to healing the conditions of those in exile, hidden or shunned by society with cutting edge ideas and programs? JFK was in the process of trying to heal the Nation of racial, educational, and financial disparities. The opposition showing seesaw between change and healing. It certainly points to the sudden events of the JFK assassination. The twelfth house is noted for actions that are hidden or behind the scenes, secret groups, foes and entities. It can also denote institutions such as the hospital, where JFK was taken in the hopes of saving his life. The facts behind the reason for the assassination are shrouded from everyone. Questions prevail, even to this day, as to who, what and why this happened. There are many theories that still exist, with no substantial conclusion that clearly puts an end to the questioning. Neptune in the eighth house square to both Saturn (authority, government) and the Moon (the common citizen). The feelings of both authority, the representative government and, the common citizen are joined in solidarity on this day; Saturn and Moon are conjunct in the eleventh house - Congress and their concerns.

Looking at the chart of the LBJ swearing into office, one cannot help but notice that the upper hemisphere is dominant indicating an administration that would be assertive in social areas both at home and abroad. The third quadrant, houses 7 - 9, holds most of the planets; it is a public area where society is featured and this administration acknowledges the hardship and great responsibility cast upon it. LBJ called all people to work together to join as partners in helping the country and the world maintain stability after the tragic event. There is a willingness to listen to the ideas of others to bring about success and transformation to meet those goals. A great deal of work was aspired to by the Administration when he was Vice President, a unique intellectual spark fueled by the fire of Vesta (Mercury 9° 53' conjunct Vesta 8° 37') LBJ is adamant, driven and compelled to fulfill the work that was begun under JFK, to get real results, now! Thus honoring the late President. (Sun conjunct Vesta). The nodal position is Cancer North Node/4th house - Capricorn South Node/10th house. The challenge will be to bring the country together as a family. Work, responsibility and duty to the people are an asset here.

The first house representative of the common person, the public consciousness, the nation as a whole, has the planet Jupiter retrograde in the astrological sign of Aries (9° 48' RX) residing in it. Jupiter equals big and expansive. Jupiter denotes government activities, education, institutions of higher learning and its personnel, legislators, legislative branches, legal affairs, incomes, improvements, enhancements, judicial system, judges and their matters. The first house and the chart ruler is Mars which is conjunct Venus, both are in the sign of Sagittarius both are out-of-bounds, which would express the energy of these two planets', assertiveness of Mars and passion of Venus lending to a passive aggressive force with a twist. In addition, Mars and Jupiter are in mutual reception.

The third house is representative of media, communications, all forms of travel and transportation and is inclusive of their structures. It also represents neighboring countries. The sensitive point, the Part-of-Fortune in Gemini is located here. Mercury is ruler of Gemini. Mercury (communication) conjuncts Vesta (keeper of the home and hearth) in the eighth house where the Sun (President) is located.

The fourth house represents Patriotism, the country's homeland and public buildings, real estate, the living conditions of the population whether their home or physical conditions. The nodal axis is Cancer North Node/4th house - Capricorn South Node/10th house. The challenge will be to bring the country together as a family. Work, responsibility and duty to the people are indicated here.

The chart suggests possibilities for transcending into the space age (Pluto sextile Neptune), space exploration, space ships (Pluto conjunct Uranus); partnerships across the Atlantic and Pacific (Jupiter sextile Moon, Jupiter trine Mercury in the 9th house, peace and peace preservers (Jupiter sextile moon, Jupiter trine Mercury, Venus conjunct Mars), elderly care, nursing homes, fight against poverty (Moon conjunct Saturn), action on equal rights for all (Venus conjunct Mars).

## **Events during President Lyndon Johnson's first term in office.**

### **The Twenty-Fourth Amendment to the Constitution**

**Background:** In 1962, the U.S. Congress proposed the Twenty-Fourth Amendment to the Constitution to end the practice of States instituting a poll tax or any other tax to be paid by all citizens for the right to vote in an election for President, Vice President, Senate or Congress. The tax was a barrier for people of color and society's poorer citizens to casting their vote in elections. The Amendment also gave Congress enforcement power through legislation. In January 1964, South Dakota became the thirty-eighth state to ratify the amendment thus completing the process. President Johnson who sought to see the passage of this Amendment addressed the American people from the Cabinet Room of the White House of this accomplishment on February 4, 1964 at 9:30 a.m.

## The Great Society

**Background:** Lyndon Johnson's "Great Society" speech was given on May 22, 1964, at 10:56 a.m., Ann Arbor, Michigan at the commencement ceremony before the University of Michigan. The speech was designed to carry a concept and catchy phrase that would introduce and be carried forward to LBJ's campaign for election. The speech introduced and outlined President Johnson's aspirations and agenda to bring prosperity to all citizens of the United States. The speech was meant too inspire and challenge the graduating class to take the past accomplishments of the nation and bring the fruits of prior generations' efforts to a new and higher level that would be beneficial to the community as a whole. There would be a great deal of work involved in doing this. The speech emphasized that the corner-stone of a Great Society is the value of equality and liberty for all, and puts an end to poverty. Three areas were outlined to begin building the Great Society. 1) The Cities: renew, revamp and build the infra-structure, culture, landmarks and housing in the cities so they are an asset to those who want to live, work and visit there. 2) The Country Side: Keep America Beautiful. Preserve the water, air and land from pollution. 3) Education: Every child should have the means to obtain an education from grade school through graduate school regardless of their gender or financial status. Revamp the educational system and buildings, so it grows with the needs of the population. More and better trained and paid teachers.

### Transit Aspects:

# The Civil Rights Act of 1964

**Background:** A ceremony and presidential remarks were broadcast on radio and television on July 2, 1964, at 6:45 p.m. when President Johnson spoke to the American people, Congress and Civil Rights Leaders from the East Room of the White House concerning the signing of the Civil Rights Act. This monumental legislation affirms the principles of the American Constitution that each individual has the right to pursue, life, liberty, freedom and equal opportunities. It forbids discrimination based upon race, color, religion or national origin. The President called upon all Americans to work together and put aside racial differences. The Act made provision for an advisory committee and funds to enforce the legislation.

## Transit Aspects:

One can easily see the impact the signing of the Civil Rights Act had on the inaugural chart.

The angles of the inaugural chart are activated multiple times; a transformation has begun. The transiting IC ( $5^{\circ}\Upsilon 41'$ ) and the transiting MC ( $5^{\circ}\Delta 41'$ ) are conjunct the natal Ascendant ( $5^{\circ}\Upsilon 46'$ ) and the natal Descendent ( $5^{\circ}\Delta 46'$ ).

The transiting new Moon and solar eclipse ( $19^{\circ}\Pi 19'$ ) opposes natal Venus ( $21^{\circ}\times 34'$ ) and natal Mars ( $20^{\circ}\times 35'$ ) activating the energy of Venus and Mars.

The transiting Descendant ( $16^{\circ}\Pi 35'$ ) conjuncts the natal Part-of-Fortune ( $18^{\circ}\Pi 18'$ ).

Transiting Saturn ( $4^{\circ}\times 47'$  RX) trines natal IC ( $3^{\circ}\ominus 30'$ ) and is sextile natal MC ( $3^{\circ}\Upsilon 30'$ ). Per traditional astrology interpretations Saturn represents people of color.

Transiting Uranus ( $7^{\circ}\text{♄} 0'$ ) square natal Vesta ( $8^{\circ}\times 37'$ ). A time of healing and sudden change.

Transiting Ascendant ( $16^{\circ}\times 35'$ ) is sextile natal Saturn ( $17^{\circ}\approx 19'$ ). This is a good time to make commitments, find solutions and establish a new direction for change in the future.

## The Gulf of Tonkin

**Background:** The United States was involved in a conflict with North Vietnam to contain the spread of communism into Asia. According to the declassified timeline in U.S. Naval documents, intercepted North Vietnamese communications were received indicating that the USS Maddox was being tracked while on a reconnaissance mission and an attack on that ship was eminent. The USS Maddox was part of the Desoto patrol along the Democratic Republic of Vietnam (DRV) coastline to monitor, locate and identify radar transmitters that may be connected to the DRV/Viet Cong supply routes used during the North Vietnam conflict. Although information in the report is somewhat obscured by a stamp on the released document, it appears that orders were given to the North Vietnamese to attack occurred at 12:44H, and led to three PAVN patrol boats exchanging fire with the USS Maddox. The USS Maddox sustained minimal damage and the PAVN patrol boats fled the area. This incident brought an escalation to a conflict that was very controversial politically. I am using the initial time of 12:44H as the onset of the event and relative information indicated that the location of the President was the White House.

### Transit Aspects:

Transiting Jupiter ( $23^{\circ}8'14''$ ) oversea travel in the 2nd house of money and assets, oppositions natal New Moon ( $23^{\circ}11'11''$ ) in the 8th house of foreign affairs, indicates the start of the conflict escalation and emphasizes expenditure of money and assets.

Transiting 8th house, (foreign affairs) cusp ( $26^{\circ}8'34''$ ) makes a wide opposition to natal Sun (president) ( $29^{\circ}14'49''$ ), and the natal new moon ( $23^{\circ}11'11''$ ).

Transiting Mars ( $1^{\circ}58'58''$ ) (soldiers) conjunct the South Node ( $1^{\circ}58'28''$ ) and the IC ( $3^{\circ}53'30''$ ) the Vietnam conflict coming to home. The IC is a water sign, Cancer that shows the water aspect of the incident.

Natal Descendant ( $5^{\circ}46'46''$ ) in the sign of Libra - open enemies.

## **Conclusion:**

The inaugural chart in this study does show the atmosphere at the time the President was sworn into office and the potential areas that maybe the focus of the President's term in office. The events examined in this article do connect to the inaugural chart. However, the events are seen in retrospect making it is much easier to see how a transit unfolds, what elements were in play and how it correlates to the inaugural chart. Predicting the date, time, and topic of an event, and when it is anticipated to occur is a much different situation. More information from many sources would be need to be examined to make an informed prediction. Whether positive or negative, the outcome and how those energies are utilized is based on numerous factors, many of which are unknown until charts from other sources are examined and supporting background information is obtained and reviewed.
