

**RESEARCHING PLUTO, ITS SIGN - SCORPIO - AND ITS HOUSE - THE 8TH  
IN THE BIRTHCHARTS OF PEOPLE WHO COMMITTED SUICIDE  
BY Pamela Kokott, Astroinvestigator, September, 2014**

## **ABSTRACT**

This research attempts to determine the connection between a particular planet Pluto its corresponding sign of Scorpio and corresponding house, the eighth house in the natal chart with the propensity for suicide.

## **INTRODUCTION**

The research utilized as many individual facets of analysis as possible. Only some of them proved to be significant, but to have reached any statistically profound results at all, speaks loudly for itself and thus for astrology. The analysis used nearly a thousand criteria looking for relationships that exceeded normal or average correlation in the birth charts of people who committed suicide. This study write-up is used in conjunction with the spreadsheet PLUTO SUICIDE RESEARCH RESULTS

## **METHODOLOGY**

The data we collected totaled 563 birth charts of people who committed suicide. We used the Astro Investigator Fast Research software designed and written by AIR Software to do our research. (<http://www.alphee.com>) Using a 50 group and chi-square value of three (3).

The criteria for our research model included but were not limited to Pluto:

- Pluto by sign, House, Major aspect to Pluto with other planets in the angles 10° orb
- Minor aspect to Pluto with other planets in the angles 5° orb
- Combined major aspects, Combined minor aspects, Combined Five Ptolemy aspects,
- Pluto intercepted, Pluto retrograde, Pluto rises before the sun, Pluto rises before the moon, Pluto in angles,
- Phases of Pluto, Speed of Pluto slowing down or accelerating,
- Aspects to planets in the 8th house the Scorpio house, Aspects to ruler of the 8th house,
- Aspects to the Midpoints to the planet Pluto by 4° orb, Planets in the 8th house,
- Pluto in hemisphere, Pluto Grand cross, Grand trine or T-square, Pluto with Nodes, or Vertex

## **RESULTS**

Important Factor relating to Pluto within the sample set of 563 charts:

Pluto in astrological signs.

Leo 56 %, Cancer is 20 %, Virgo 7.6 %, Gemini 6.9 %, Taurus 3.55 %, Libra is 3 %  
Scorpio, Capricorn, Pisces, Aries are less than 1% of sample set

Aquarius and Sagittarius have 0 representations in sample set. (**see table 1#**) page 2  
 Using a minimum chi square of 3, out of 1160 astrological events --  
 42 were significant. Of those, 13 had a high probability of occurring often, 29 seldom.  
 7 involved midpoint aspects.

When analyzing the data in respect to where Pluto resides by astrological sign:  
 The items below need further consideration within a larger sample set because we do  
 not have an even sampling of Pluto in all 12 astrological signs

Seldom: Venus trine Saturn in the 8th house by a 10 degree orb did not occur in any of  
 the suicide charts and it had a chi squ value of 5.4 % with a 98% probability of not  
 happening. This is significant.

Seldom: Natal Vertex in the 8th house happened in 20% of the charts

Seldom: Natal Venus making a Ptolemy Aspect to Pluto happened in 39% of the natal  
 charts

(**see table 2#**) page 3

Please note that 5.63 is the equivalent of 1% in the sample set.

Please Note This data cannot be used as singular indicator of suicide risk because it is  
 a generational planet. It simply reflects the sample portion and further data collection  
 would be needed to draw any conclusion from Pluto as one single factor by itself.
